

PulseCPR

“The Knowledge to Save a Life”

Who We Are . . .

Our goal is to teach lifesaving techniques useful in emergencies; specifically sudden cardiac arrest, in which someone's breathing or heartbeat has stopped.

PulseCPR is an Authorized Provider of The American Red Cross. Certification cards provided after successful completion of Lay Responder courses or CPR / AED for the Professional Rescuer.

We specialize in providing the East Coast in empowering, affordable and fun CPR classes in the corporate and university environment.

What You Should Know . . .

- Sudden cardiac arrest affects anyone, regardless of age, gender, physical fitness, etc
- **More people die of Sudden Cardiac Arrest each year than all of these combined: traffic accidents, house fires, hand guns, breast cancer, prostate cancer and AIDS**
- About 75 percent to 80 percent of all out-of-hospital cardiac arrests happen at home, so being trained in CPR can mean the difference between life and death for a loved one
- *CPR applied immediately doubles a victim's chance of survival!*

What We Provide . . .

- PulseCPR specializes in providing CPR and First Aid classes for organizations such as Schools, Churches, Clubs and Businesses
- All of our CPR, First Aid, and AED classes are taught according to the standards of the American Red Cross
- Intimate classroom settings
- This classroom-based, video and instructor-led CPR course offers students the opportunity to learn basic CPR in a personal, fun group environment

The Benefits of Our Training . . .

- **CPR saves lives**
- Flexible and affordable classes
- It takes a few hours of your own life to potentially save another life
- **Death from sudden cardiac arrest is not inevitable - if more people knew CPR, more lives could be saved**

Corporate CPR Training . . .

. . . Tailored for You
